

Paris Real Estate Week

A week of MIPIM and Propel events
dedicated to property, cities & innovation

14 - 17 September 2020 • Paris, France

Conferences & events programme

PARIS
REAL ESTATE
Week

What is The Paris Real Estate Week ?

A week of MIPIM and PROPEL events dedicated to property, cities and innovation.

The Paris Real Estate Week is the first event to trigger business rebound gathering **international real estate leaders** who wish to **reconnect**, benefit from **timely content** and prepare future **investment strategies**, to **speed the recovery of the property industry**.

With a new concept, the Paris Real Estate Week offers a **full programme of thought-inspiring keynotes, conference sessions and networking events** around 5 main topics:

Innovation

Urban Environment

Investment

Hospitality

Diversity

The first days of the Paris Real Estate Week focus on **innovation in real estate**.

Propel by MIPIM becomes the Week's flagship event with **conference sessions, networking opportunities and an exhibition area** that will address key topics such as data, sustainable development, talent, investing in innovation, and the user experience.

Throughout the week, take the opportunity to attend events that made the success of MIPIM Cannes such as the **Awards Ceremony & Dinner**, the **Startup Competition Finals**, the **Investors Think Tank** and the **Hospitality Summit**.

To complete this unrivaled programme, MIPIM organises the **MIPIM Urban Forum. Themed around "Embracing change"**, the sessions will be designed to analyse all the factors that have changed our urban lives and how they impact the industry and urban development. A "City Forum" dedicated to decision-makers from French local authorities will also take place on 16 September to encourage the sharing of experiences and provide an initial assessment of how Covid-19 has affected real estate.

Our partners will enrich this insightful week with the **Gend'her networking breakfast** organized with **Business Immo** and **KPMG** and **The Young Leaders networking event** brought to you by the **Institut Choiseul**.

NOT TO BE MISSED

Propel by MIPIM is delighted to welcome **Steve Wozniak**, Apple co-founder and forward-thinking entrepreneur for a moderated chat.

Thinking differently to deliver innovative solutions is the DNA of Steve Wozniak, who revolutionized the world of technology.

Throughout his career, Steve Wozniak has shown how a business successfully transforms and flourishes through the capacity to innovate. More than ever, technology is an integral part of our lives and the real estate industry is no exception. Its entire ecosystem is reinventing itself.

Tuesday 15 September, 14 :30-15 :15

MIPIM Urban Forum is pleased to welcome **Nicolas Sarkozy** former President of the French Republic.

Widely considered one of the most influential of French presidents to date, Nicolas Sarkozy offers an unparalleled analysis of the most pressing issues of our time.

Nicolas Sarkozy served as the 23rd President of the French Republic (2007 to 2012). Prior to his presidency, Sarkozy served as Minister of State, Minister of the Interior and Spatial Planning and Minister of the Economy, Finance and Industry. A visionary leader who has dedicated his life to public service, Sarkozy is widely recognized for his hands-on tactics and straightforward approach in dealing with the most critical issues of our time-foreign policy, national security, global economics and immigration. Integral in the international community's response to Libya's civil war, he was also involved with brokering an end to the August 2008 conflict between Russia and Georgia and led the European Union's response in establishing the G20 summits. Pragmatic and decisive, Sarkozy was at the forefront of the response to end the Euro Crisis and directed the bridging of a multi-year gap between the leaders of France and Germany. The recipient of numerous humanitarian awards and accolades and the author of several books on politics and the issues facing modern democracies, Sarkozy shares with audiences his perspective on the future and solutions to the challenges we face in the 21st century.
